Declaration of Interests and Register of Interests

All Board members of Trusts are required by the NHS 'Code of Conduct, Code of Accountability in the NHS', to declare interests which are relevant and material to the NHS Board when they are appointed. Board members should also inform the Director of Human Resources and Corporate Affairs of any additions to the list as and when they arise.

The Register of Interests is kept within the Executive Office and is a public document.

If you have no relevant interests then you should register a nil return.
