Welcome to the August 2018 edition of the Whittington Health Library Bulletin for Islington CCG & Islington Primary Care staff. If you have any feedback on the content or structure of these bulletins, we would love to hear it.

To find out more about other library services available to you, including our highly-regarded literature searching service and desk-top inter-library loan delivery please visit http://www.whittington.nhs.uk/whl or call 020 7288 3580.

**Trying to stay up to date on a topic? Sign-up for Knowledgeshare** and receive automated alerts every two weeks focused on your specific interests.

Please contact the Library on whl@nhs.net and complete the brief form if you would like to take advantage of this new system. You can also contact us to update your registered interests if they change, or you start a new project.

**LATEST FROM THE JOURNALS…**

Your NHS OpenAthens account will give you access to the majority of full text of articles in these journals. Any others can be requested from the library via inter-library loan – [request an article](http://www.whittington.nhs.uk/whl).

If any of your colleagues would like an OpenAthens account they can self-register at [https://openathens.nice.org.uk/](https://openathens.nice.org.uk/)

**British Journal of General Practice**

Please [click here](http://www.whittington.nhs.uk/whl) to view British Journal of General Practice’s “online first” articles.

[The National CKD Audit: a primary care condition that deserves more attention](http://www.whittington.nhs.uk/whl)

**Books:** [Migrant Architects of the NHS: South Asian Doctors and the Reinvention of British General Practice (1940s–1980s): Trailblazers](http://www.whittington.nhs.uk/whl)

[Putting function first: redesigning the primary care management of long-term conditions](http://www.whittington.nhs.uk/whl)

[New teams in general practice](http://www.whittington.nhs.uk/whl)

[From the trainer: The patient–patient relationship](http://www.whittington.nhs.uk/whl)

[From the newly qualified GP: the life changing magic of not doing much at all](http://www.whittington.nhs.uk/whl)
NEW ELSEWHERE...

NICE

**Early and locally advanced breast cancer: diagnosis and management, NG101** (07/18) - This guideline covers diagnosing and managing early and locally advanced breast cancer. It aims to help healthcare professionals offer the right treatments to people, considering the person’s individual preferences.

**Rheumatoid arthritis in adults: management, NG100 (07/18)** - This guideline covers diagnosing and managing rheumatoid arthritis. It aims to improve quality of life by ensuring that people with rheumatoid arthritis have the right treatment to slow the progression of their condition and control their symptoms. People should also have rapid access to specialist care if their condition suddenly worsens.

**Dementia: assessment, management and support for people living with dementia and their carers, [NG97] 20 June 2018** - This guideline covers diagnosing and managing dementia (including Alzheimer’s disease). It aims to improve care by making recommendations on training staff and helping carers to support people living with dementia.

NHS England

**Top GP will help spread innovations to join up NHS health and social care** (11/07/18) - NHS England reports that a specialist GP has been appointed to help spread NHS innovations which integrate health and social care. Dr Karen Kirkham, who runs a practice in Dorset and specialises in women’s health, will work with the wider GP community to spread tried and tested innovation and transformation techniques across the country.

**Excellence in Continence Care - 23 July 2018** - Practical guidance for commissioners, providers, health and social care staff to help ensure people receive excellent continence care consideration.

**NHS England Board meeting 4 July 2018** - Topics included:
- Developing the NHS long term plan: evidence based interventions (procedures that should not be routinely commissioned)
- Developing the NHS long term plan: primary care reform - GP contract reform including
- A review of the Quality and Outcomes Framework (QOF)
- GP payments in light of the growth of digital-first primary care
- GP Services Programme Update
- Second progress report from the Empowering People and Communities Taskforce

Public Health England

**Health matters: health economics - making the most of your budget** - 27 July 2018 - Guidance on how local authorities and NHS commissioners can use health economic tools, resources and core principles to maximise their budgets. Read the accompanying blog here.

RCGP

**General Practitioners with Extended Roles** April 2018 - GPs with Extended Roles (GPwERs) undertake roles that are beyond the scope of GP training and the MRCGP and require additional training. The term GPwER includes those previously referred to as GPs with Special Interests (GPwSIs). The RCGP has developed a framework which describes a new approach to the accreditation of GPwERs and is aligned to the appraisal and revalidation process. See the guidance and competences for GPwERs for Dermatology and Skin Surgery.
British Orthopaedic Association

**Commissioning Guides** - A series of commissioning guides set out best practice care pathways to assist CCGs in designing optimal care for their populations. Recently updated guides include Pain Arising from the Hip in Adults, Painful Deformed Great Toe in Adults, Painful Osteoarthritis of the Knee and Treatment of Carpal Tunnel Syndrome.

Other

**Migrant.health**
This website (currently prototype) is an online tool for people working in primary care who want to learn about and discuss how to provide high quality care for migrant patients, particularly those who might be in more vulnerable circumstances. Launched in July 2018 the site was developed jointly by Doctors of the World and the University of Sheffield.

**Extending the HPV vaccination programme (18/07/18)** - The Joint Committee on Vaccination and Immunisation (JCVI) has published a 13 page statement on its conclusions on extending the human papillomavirus infection (HPV) vaccination programme to adolescent boys in the UK.

**Review of the National Childbirth Trust Hidden Half report and GP consultation** - Centre for Mental Health 28 June 2018 - This report found that resourcing GPs to offer a separate 10-minute appointment about the mother’s health at a postnatal check-up would cost around £27 million a year but this could help to identify more women who are experiencing mental health difficulties after the birth of their child, and ensure that they receive timely, effective support.

**The Role of Technology-Based Interventions for Substance Use Disorders in Primary Care: A Review of the Literature.** - Medical Clinics of North America. 2018 Jul;102(4):715-731 - An overview of technology-based interventions (eg, computer-based and Web-based interventions, text messaging, interactive voice recognition, smartphone apps, and emerging technologies) that are extending the reach
