#### Social Communication and Autism Assessment Flow Chart

# 1. Referral received

Usually this has been sent by your school SENCo, SLT or GP

#### 2. Triage

Decision made about appropriate pathway and acceptance letter sent out

#### 3. Waiting list

We provide information and advice about the support available while you're waiting

## **4. Assessment** This could be within SLT sessions or a separate appointment

### **5. Additional assessments** In some cases further assessment is needed and we will discuss these options

## 6. Feedback

We will feed back strengths, differences and difficulties and the outcome of the assessment. You will be given a pack with local information and support

## 7. Report

A summary of the assessment and feedback will be sent to you, nursery/school, GP and anyone else that you think is useful

#### 8. Discharge

Your child will be discharged from the social communication team but may be followed up by the doctors if there are any medical concerns
