

Ambulance bays are coming to our front entrance

Our patient transport ambulances are moving to the area in front of our main hospital atrium, on Magdala Avenue.

This is part of our wider project to create more space around our urgent and emergency care department, to improve the services we provide.

From Monday 1 December, you will no longer be able to be dropped off at the front of the hospital on Magdala Avenue.

Vehicle drop-offs will be at our Highgate Hill entrance.

You can still come to the front entrance on foot, or by the usual busses.
