						I undertake occasional secondary/self-employed work via an umbrella company, providing specialised Crystal Reports and SQL based digital reporting services to other NHS organisations in my own time. This work is carried out outside my contracted hours for Wh NHS Trust. It is requested where other NHS organisations' digital teams lack the capacity or expertise to build complex reports. I provide simpler reports free of charge where possible as part of shared NHS learning and support, but for more substantial pieces requiring several hours of work I charge for my own time hence the above arrangement. On occasion I also undertake market research questionnaires or calls (of which there is a monetary or voucher reimbursement) from third party companies relating to my experience in using clinical and digital systems. Note that this is undertaken as an individual and in no way representing views of I work two days per week at the Lister Fertility Clinic in Chelsea, part of HCA Healthcare. I do occasional work for a company called Fertility Solutions. Managing Director of Whittington Pharmacy Community Interest Company, a Wholly Owned Subsidiary of Whittington Health NHS Trust.
