Exempt Diseases
Certain diseases where treatment is necessary to protect the wider public health. This exemption from charge will apply to the diagnosis even if the outcome is a negative result. It will also apply to the treatment necessary for the suspected disease up to the point that it is negatively diagnosed.

The exempt diseases are:
Acute encephalitis
Acute poliomyelitis
Anthrax
Botulism
Brucellosis
Cholera
Diphtheria
Enteric fever (typhoid and paratyphoid fever)
Food poisoning
Haemolytic uraemic syndrome (HUS)

d. treatment for all **sexually transmitted diseases**, including HIV treatment.
Guidance for HIV clinicians and OVMs is available on the DH website;

e. treatment given to people detained, or liable to be detained, or subject to a
community treatment order under the provisions of the Mental Health Act 1983
or other legislation authorising detention in a hospital because of mental disorder;

f. treatment (other than that described in (e), above) which is imposed by, or
included in, an **order of the Court**;

From 6 April 2015Victims of violence (relating to domestic violence, sexual
violence, torture and female genital mutilation (FGM)).
Currently, all NHS secondary healthcare provided to chargeable overseas visitors
subject to such violence is chargeable- To exempt specific treatment provided to
victims of violence. This will function similarly to current exemptions for infectious
diseases. **Only the treatment needed to treat conditions caused by the
violence is exempt from charge, rather than all treatment for the patient.**
